

# DIALYSIS CENTER

The Dialysis Center in Kobarid is equipped with modern machines and manned by professional medical personnel. During dialysis treatments a specialist nephrology doctor is always present. Specialist internal diagnostic examinations are also undertaken for nephrology and rheumatism and are incorporated within the centre.

If you are dialysis patient and enjoy the nature, walking, hiking, cycling, trips down the river Soča ( by raft or kayaking etc,...) , paragliding, or if you have an interest in history ( 1st. world war, the Venetian empire, The Langobards,...) then our Soča valley is the right place for you.
